- September 10, 2024
- December 3, 2024
- Download your "Save the Dates" [HERE](#)

## ACS Research Opportunity

### Your Voice is the Key to Changing Lives Forever

We need your help to change the future of cancer as we know it. Support our goal of reaching 100,000 Black women for [VOICES of Black Women](#), a pivotal long-term study led by the American Cancer Society (ACS). This groundbreaking initiative will help us better understand health conditions like cancer to learn how to improve overall health and well-being among Black women. ACS is looking to mobilize local partners to share the study with their networks.

If you are interested in learning more about how you or your organization can support VOICES, please reach out to [Katie Bathje](#) for additional information.
